Environmental Policy

At Matt Molloy Pty Ltd trading as Integral Scaffolding, it is our responsibility to strive towards avoidance of any environmental impacts resulting from our day to day operations.

This is achieved through:

- Integrating Environmental Management into our everyday operations
- Monitoring & Complying with all relevant Environmental laws, relevant standards and practices
- Working to achieve the environmental expectations of our staff, customers, suppliers and local community
- Identifying opportunities for efficient use of water, energy and minimisation of waste

Strategies will include:

- Identify and monitor our significant environmental impacts and manage these to achieve planned environmental outcomes
- Create awareness amongst all staff and suppliers of the potential environmental effect of operations in which they are involved and how they can work towards minimising these environmental effects
- Diligently work and communicate with our clients in assessing any impacts that may occur in our environmental surroundings and together strive towards solutions that will eliminate any environmental impact

In adopting this policy it is our intention to annually review this policy.
